Professional Experience

N-idea – Dekwaneh

Front-End Developer | Jan 2022 – Present

- Built mobile-first, responsive layouts using Tailwind CSS utility classes, ensuring consistent design across all screen sizes.
- Customized Tailwind configurations for reusable themes, colors, and spacing.
- Developed and maintained React.js applications, optimizing for performance and user experience.
- Integrated RESTful APIs for dynamic data display.
- Basic knowledge of global state management using Zustand.
- Designed mobile app layouts with React Native.
- Explored backend development with Node.js and Express, connecting React frontends to MongoDB databases.
- Collaborated in Agile sprints, participating in planning, daily stand-ups, and code reviews.

Haceb – Hamra, Beirut

Software Developer Intern | Sep 2021 – Dec 2021

- Configured relationships between system and custom entities in Microsoft Dynamics 365.
- Developed custom workflows and plugins using C#/.NET.
- Customized CRM forms using JavaScript and supported deployment activities.

Project Highlights

- **Todo App:** Simple functional todo app organizing tasks as cards with title, description, and date created. Full CRUD functionality.
- **Task Management System:** Includes user authentication, CRUD operations, toggle-controlled task completion, completion-based filtering, dropdown-based priority assignment with automatic sorting, and light/dark theme switching.
- **Portfolio & Design Work:** Includes UI/UX experiments in Figma and Blender 3D projects for modeling and visualization.
